EDUCATION

GLA University Mathura, Uttar Pradesh

B.Tech in Computer Science and Engineering | CGPA: 8.88/10 *2023 – 2027 (Expected)*

- **Relevant Coursework:** Data Structures & Algorithms, Object-Oriented Programming, Operating Systems, Database Management Systems

TECHNICAL SKILLS

- **Languages:** Java, JavaScript, SQL
- **Backend:** Node.js, Express.js, REST APIs, MongoDB, Mongoose
- **Frontend:** HTML, CSS, React
- **Engineering:** Authentication & Authorization, Validation, Error Handling, API Testing, Caching, Rate Limiting, Media Processing
- **Tools:** Git, Postman, Cloudinary, FFmpeg

EXPERIENCE

Stratbeans Consulting Pvt. Ltd. July 2026 – Present

Software Engineer Intern

- Contributed to backend and frontend improvements across assessment, learning-path, and skill-management workflows in an enterprise learning platform.
- Debugged and resolved functional, validation, UI, and data-integrity issues across multiple modules, improving feature reliability and user experience.
- Implemented and validated application changes using structured test cases and browser-based testing to support stable UAT releases.

PROJECTS

- **Scriptly – AI-Powered Study Tool** (GitHub) (Live) *React, Node.js, Express.js, MongoDB*
  - Built a full-stack platform with REST APIs that transform audio, video, and YouTube content into summaries, flashcards, quizzes, and revision notes.
  - Integrated Groq Whisper for speech-to-text and FFmpeg for audio extraction and video compression to handle media-processing and API upload constraints.
  - Implemented a fallback-based content generation pipeline using Google Gemini and Groq Llama 3.3 to handle provider failures.
  - Added authentication, Joi validation, API rate limiting, temporary-file cleanup, transcript fallbacks, MongoDB caching, and API testing with Postman.
- **Learnify – Full-Stack Learning Management System** (GitHub) *React, Node.js, Express.js, MongoDB*
  - Developed course creation, video lectures, student enrollment, and progress tracking features with Cloudinary-based media storage.
  - Implemented reusable authentication and authorization middleware for instructor ownership, enrollment validation, and role-based access across 17 protected REST API endpoints.
  - Implemented course discovery with search, category filtering, pagination, and nested Mongoose population, with centralized handling of validation and database errors.

PROBLEM SOLVING & ACHIEVEMENTS

- Solved **950+ problems** on LeetCode and achieved a **contest rating of 1737**, demonstrating strong problem-solving skills and consistent DSA practice.
